## Alma Hybrid™

**Transform your skin. Empower a happier, more confident you.**

Alma Hybrid is all about achieving balance: the balance between respecting your natural beauty, and enhancing what nature has given you; between the most powerful technology and the gentleness of your skin; between delivering maximum results, and the need for minimum downtime.

Encompassing 3 essential treatments for perfect resurfacing, stimulating new collagen and regeneration of the dermis, and delivery of skin essentials, Alma Hybrid gives you results you never dreamed possible!

### **Hybrid Lift – super renewal**

Take the weekend to roll back the years!

Renewing your skin to remove fine lines and deep wrinkles, this over-the-weekend, virtually pain-free treatment combines the power of two different lasers to reveal smoother, more youthful skin.

Impact Ultrasound completes the Hybrid Lift treatment to enhance Trans Epidermal Delivery of cosmetic products and maximize results.

*Recommended treatment protocol: 1-2 treatments at intervals of 4-6 weeks.*

## Hybrid OScar – scar revision

A treatment fit for the stars!

It's time to say goodbye to scarring, whether from your teenage acne, skin trauma or even surgery. 100% customizable to the type of scar severity, OScar penetrates the skin layers, getting to work right where it's needed most to repair scar tissue from within.

The treatment ends with Impact Ultrasound, for enhanced Trans Epidermal Delivery of products that can assist the scar revision process.

*Recommended treatment protocol: 3-4 treatments at intervals of 3-4 weeks*

## SoftLift – rejuvenation

Your lunchtime lift!

Gentle enough to fit into your day with minimal downtime, yet powerful enough to treat fine lines and wrinkles, and even repair skin lesions, such as acne scars. Our SoftLift treatment is suitable for the face, neck & décolletage areas and is safe also for darker skin types\*.

In no time at all, you'll be enjoying improved skin texture, as you reclaim that youthful skin tone and glow!

*Recommended treatment protocol: 2-3 treatments at intervals of 2-3 weeks*

\*Clinically proven for skin types II-V.

## Celebrating the uniqueness of you!

No two people are the same, which is why with Alma Hybrid we bring you a completely customized experience, with every treatment.

At the very heart of the platform, our unique HyGrid™ feature enables your practitioner to create the perfect blend of laser interaction to suit you and your skin, giving you optimal results with minimal downtime. HyGrid is delivered by our highly-advanced, automated ProScan scanner. With a cooled tip for your comfort, our flagship applicator enables large surface areas to be treated, quickly and safely.

---

*"I have been trying these type of treatments for years, and I have to admit – I've become somewhat skeptical. Alma Hybrid managed to surprise me. I had the treatment at the end of the week so I would have the weekend to relax and recover. I don't understand much about the technology, but it doesn't matter because it does what it says it would. The results are clearly visible and I feel great!"*

**-Hanna Menashes, Patient-**

- **Unprecedented visible results**
  - **3 energies combine to deliver optimal effect to the skin**
  - **Personalized to you – depending on your skin complaint**
  - **'Lunch time' or 'over-the-weekend' – choose your own recovery time**
  - **Safe treatments**
