# ***FACIAL MUSCLE TONING***

FIRST AND ONLY  
SYNCHRONIZED NEUROMUSCULAR  
AND RADIOFREQUENCY TECHNOLOGY

MADE IN EUROPE  
MADE FOR YOU

## ***NEUROMUSCULAR + RADIO FREQUENCY. SYNCHRONIZED.***

WonderFace is the first facial treatment device capable of combining synchronized Inductive Monopolar Radiofrequency with Neuromuscular emissions.

## ***BECAUSE BEAUTY IS IN MUSCLES***

WonderFace completely changes the game in the field of facial beauty treatments.

It is the new treatment for facial sagging and lack of skin firmness. It simultaneously treats the skin and facial muscles thanks to the unique combination of synchronized Radiofrequency (RF) and Neuromuscular technologies. In this way, it reshapes and tightens the skin by heating the dermis and increasing the levels of collagen and elastin fibers.

Neuromuscular emissions work directly on facial muscles, helping to tone them and improve firmness, especially in problematic areas such as the zygomatic, frontal, and platysma muscles (double chin).

On the other hand, monopolar radiofrequency is known for its efficacy in stimulating collagen production and skin tightening, resulting in a younger and firmer appearance.

It has undergone rigorous clinical trials, and its ergonomic design and ease of use allow beauty professionals to easily integrate it into their procedures.

## UNPRECEDENTED INNOVATION

We have put the most futuristic engineering at your service:

**MULTI-USER SYSTEM:** WonderFace allows for the treatment of 2 patients simultaneously.

**TABLET CONTROL:** Complete device management in your hands and remotely.

**CLOUD SOFTWARE:** Keep exact track and manage your Wonder from anywhere.

## THREE SIMULTANEOUS AREAS

*Frontal*

*Zygomatic*

*Submaxilar*

### **Frontal:**

Produces skin tightening and increases muscle tone.

### **Zygomatic:**

Reduces nasolabial folds and has a preventive action.

### **Submaxillary:**

Reduces double chin.

## NEVER-BEFORE-SEEN TECHNOLOGY

The combination of Neuromuscular Technology and Synchronized Radiofrequency in facial treatments with WonderFace offers you several benefits:

**Deep Facial Rejuvenation:** Radiofrequency generates heat in the deepest layers of the skin, which promotes the production of collagen and elastin.

**Muscle Stimulation:** Neuromuscular technology stimulates facial muscles, which can help tone and improve facial contour.

**Improved Circulation:** The heat generated by radiofrequency can increase blood circulation in the treated area, leading to more radiant and better-looking skin.

**Non-Invasive Treatment:** No cuts or surgeries are required, reducing recovery time and the risks associated with invasive procedures.

**Visible Results:** Softer, firmer, and rejuvenated skin after undergoing treatments with synchronized neuromuscular technology and radiofrequency.

## *VISIT US!*

We would be delighted to welcome you to our factory in Las Rozas, Madrid. You will witness how our engineers design the devices that will transform the future of the aesthetic industry.

We look forward to seeing you!
